Product and ordering information

Model available in price groups 6 + Decorative fabric (PG 6), 8, 10, decorative fabric (PG 10), D, H, J, M and X - Please refer to our current fabric/leather collection for the fabric/leather selection.

STRUCTURE:

Frame: Load-bearing parts of the frame made of solid wood and wood materials, surfaces lined with padded cardboard.
 Seat: Spring system with permanently elastic steel sinuous springs and upper-side cover.
 Seat cushions made of PUR foam (at least RG 35), structured in layers harmonised in different thicknesses and hardnesses. Seat covered with ticking (filled with high-quality filling materials). Cover made of cotton wadding.

Especially light upholstery is distinguished by its highly soft surface. In new condition, the covers exhibit a pronounced wave pattern purposefully based on the design and structure. The upholstery will adjust to the shape of the body and the firmness of the seat will give a little bit. Minor differences in seat firmness with add-on units are design-based and are therefore not a cause for complaint.

Chamber cushions: This model features high-quality chamber cushions. The filling material is held in chambers within the cushions to prevent it from shifting. The chambers and the filling material can stand out more or less depending on the type and thickness of the cover material. In order to prevent the filling material from bulging, these seat and back cushions should be plumped up, just like you do with pillows.

Back: Loose back cushions with a ticking (filled with high-quality filling material, which may contain an admixture of feathers)

Seat depths: Seat depth 1 (ST1) = 64 cm or seat depth 2 (ST2) = 84 cm - please always mention the seat depth with your order - **A mixture of the different seat depths is possible! A mixture for combinations with a corner element is possible by using the "combination corner" (NOT possible with the angular corner)!**

OTHER: All materials used meet the requirements of the DGM according to RAL GZ 430. Elements always include a grid connector and are completely covered. The appearance of the stitching may vary depending on the fabric, leather and synthetic leather used. The definition of quilted mats and cushions depend on the design and structure. The appearance of decorative, fell and double seams may vary in the fabric, leather and synthetic leather used.

Suites are standardly delivered with the back covered in the chosen fabric. All material-related information can be found on the back refer to our of the individual fabrics and leathers in our fabric and leather samplers.

All dimensions stated in the pricelist are approximate dimensions in cm, determined according to usual measuring method (see RAL-GZ 430) and in unused new condition. Please note that in case of very light upholstery especially the seat height and seat depth can be discerned during the course of use to the dimensions mentioned. We reserve the right to make changes in shape, colour and design within the scope of technical progress. Please always order from left to right as standing in front of the suite.
